Contact: Phone: +919930662707 | Email: mail2sanjay12@gmail.com | LinkedIn: [Link](#)

Experience: Mechanical Engineering Intern | May 2026-June 2026

Cosy Farms

- Implemented Engineering Graphics by converting technical hand drawing into precise 3D SolidWorks models, managing comprehensive industrial procurement and executing FDM 3D printing. Demonstrated success in bridging the gap between hardware design and field execution by conducting rigorous quality control audits, analyzing complex CFD profiles and implementing customized structural fixes to optimize controlled-environment agricultural systems

Member of Braking and Transmission | Aug 2024-Mar 2025

Team Abadha CRCE

- Implemented SolidWorks, Ansys and Fusion 360 to design and analyze braking and transmission systems for Team Abadha CRCE at BAJA SAE INDIA 2025, gaining hands-on ATV experience while developing precision, composure under pressure and effective decision-making.

Intern | May 2023-Aug 2023

Usher Exim

- Amplified my Excel skills and learnt several application processes of DGFT, Icegate Portal and more export related documentation.
-

Education:

Institute	Qualification	Graduation Year	Activities & Achievements
Fr. Conceicao Rodrigues College of Engineering	B.E. in Mechanical Engineering	Aug 2023-Present	Volunteered at the international hackathon <i>Bit N Build</i> as a Content Writer.
Sathaye College	HSC	Jun 2021-Mar 2023	Gold Medal in Maths and English Olympiad

Publications:

1. "Study and Preliminary Investigation of Performance Parameters of Rotating Shaft Related to Mechanical Vibrations," ISTAM-2026 (accepted).
-

Certifications:

- 1) **edX Verified Certificate for SOLIDWORKS CAD Fundamentals-** [View Credentials](#)
 - 2) **Proficiency in ANSYS by CADD CENTRE-** [View Credentials](#)
Student ID- CO250619Z230206
 - 3) **Essential in Ansys Fluent by CADD CENTRE-** [View Credentials](#)
Student ID- CO250619Z230206
 - 4) **Autodesk CAD/CAM/CAE using Fusion 360-** [View Credentials](#)
 - 5) **Fundamentals of Mechatronics & Automation by Tata IIS**
-

Projects:

1. Brake Calliper Assembly Design (BAJA SAE INDIA, 2025)- [Link](#)
SolidWorks, ANSYS, 3D Printing
 - Designed a part parametric assembly with FEA validation
 - Generated manufacturing drawings with GD&T and tolerance analysis
2. Transmission Gearbox Housing Prototype (BAJA SAE INDIA, 2025) - [Link 1](#)
Fusion 360, ANSYS, FDM Printing [Link 2](#)
 - Designed multi-body housing with interference analysis for gear fitment
 - Performed thermal FEA ensuring operation under high loads
 - 3D printed and post-processed functional prototype for validation testing
3. ESP32 Autonomous Robocar (Mini-Project, 2026) [Link](#)
SolidWorks, Arduino
 - Engineered 3D printable chassis with sensor integration for obstacle avoidance
4. Train Handle Ergonomic Redesign (PDD Project, 2026)
SolidWorks, Design Thinking
 - Conducted market survey and competitive benchmarking
 - Developed 3 ergonomic concepts using House of Quality methodology
